Internship

Full-Stack Developer Intern | MERN Stack, REST APIs, JWT

Jun' 2023 - Jul 2025

MyVirtualTeams (IT Services Company)

- Contributed to the development of a scalable **e-commerce web application**, improving overall **system functionality** and **user experience**.
- Implemented backend services using **Node.js** and **Express**, enabling efficient handling of **client requests** and seamless **database communication**.
- Designed and integrated **user authentication** mechanisms, ensuring **secure data access** and reliable **session management**.
- Developed and optimized **RESTful APIs** for data operations such as **creation, retrieval, and updates**, improving **application performance** and **responsiveness**.
- Managed data storage using **Mongo DB**, ensuring efficient **data handling** and structured **database interactions**.

Projects

Car Rental System | *Java, Spring Boot, JDBC, MySQL*

Nov' 2025

- Developed a backend-driven **Car Rental System** to manage **vehicle listings, bookings, and customer records**, improving overall **system efficiency**.
- Built RESTful services using **Spring Boot**, enabling seamless handling of **user requests** and **business logic processing**.
- Implemented database operations using **JDBC** and **MySQL**, ensuring efficient **data storage, retrieval, and transaction management**.
- Designed features for **car availability tracking, rental booking, and customer management**, enhancing **system usability**.
- Applied **OOP principles** and modular design to ensure **scalability, maintainability, and clean code structure**.
- Repository Link: <https://github.com/tejasvijain09/car-rental-system>

Art Critique Bot | *GPT-4, LLM, Streamlit, Docker*

Oct' 2024

- Designed an **AI powered system** to **analyze and critique digital artworks**, generating **structured feedback** across **3-5 artistic dimensions**(compositions, color, style, creativity).
- Built the application using **GPT-4** with **Streamlit UI** and deployed via **Docker** to support **multi-user access** in a **cloud environment**.
- Enabled **automatic critique generation** for **multiple artwork styles**, reducing **manual review effort** and improving **feedback consistency** by **standardizing output format**.
- Repository Link: <https://github.com/tejasvijain09/art-critique-bot>

Certificates / Certifications

ChatGPT, Generative AI & LLM

Aug' 2025

[Infosys Springboard](#)

GitHub Mastery

Jun' 2025

[GeeksForGeeks](#)

Skills

Languages C++, Java, JavaScript

Technologies/Frameworks: My SQL, Hibernate, Spring Boot, React.js, Node.js, Git, GitHub, Linux

Domain Skills: Data Structures and Algorithms, REST API Development, Authentication(JWT), Problem-Solving

Education

Lovely Professional University

Aug' 2023 – Present

Bachelor of Technology - Computer Science and Engineering — CGPA: 8.43

Phagwara, Punjab

D.M. Public Senior Secondary School

Apr' 22 – May' 23

12th — Percentage: 63.6%

Bathinda, Punjab

KV SLIET Longowal

Apr' 20 – May' 21

10th — Percentage: 94%

Sangrur, Punjab
